

Homework: #5, Class #5
Discrete Mathematics (Course Number: MTH-129-51)
Prof. G. Safko
Due: Class #6

Page 139: 6,8
Page 141: 46 – 49

Also:

Prove that $n * (n+1)(n+2)(n+3) = x^2 - 1$ for $n, x \in \mathbf{Z}$
